Projects

Recipe Website

Technologies Used: HTML5, CSS3, JavaScript, Git
Developed a responsive recipe website focusing on user-centric design and functionality.

- Implemented front-end interface with HTML5 and CSS3.
- Ensured responsiveness and usability through design iterations.
- Collaborated on backend for recipe management and user authentication.

Outcome: Demonstrated proficiency in front-end development and user experience design.

AI MedCare

Technologies Used: HTML5, CSS3, JavaScript, React, MongoDB
Led a team to develop a healthcare application integrating AI/ML for patient care.

- Developed front-end with HTML5, CSS3, and React.
- Integrated MongoDB for data management.
- Implemented AI/ML algorithms to optimize patient care.

Outcome: Showcased leadership and modern web development skills.

Kick Boots

Technologies Used: HTML5, CSS3, JavaScript, React, Node.js
Developed an online platform for purchasing football shoes.

- Designed and implemented a user-friendly interface for product browsing.
- Integrated secure payment gateways for transactions.
- Developed a responsive design to enhance user experience on all devices.
- Conducted usability testing and improved features based on user feedback.

Outcome: Demonstrated full-stack development skills and ability to create e-commerce solutions.

Achievements

- Champion, Inter-Department Football Tournament
- Participant, Smart India Hackathon
